

Announcing ...

BookingHound will very soon be releasing the next iteration of its online booking widget.

This new version is designed to further enhance your customers online purchasing experience.

The new widget contains many enhancements, a couple of which include:

- The ability for you to enter your own images and content and
- An upsell image-based carousel for your customers to purchase add-on activities/courses etc and have them added to their shopping basket.

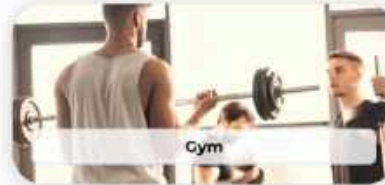

And of course, it goes without saying that our new widget is fully mobile responsive.

Lets take a look ...
